

YOUR ULTIMATE CHOICE IN TRANSPORTATION

# A.D. TRANSPORT EXPRESS

## Introduction

### Overview

A.D. Transport Express, Inc. is a privately held transportation and warehousing provider for all general commodity, manufacturing and retail industry sectors. Our mission is to provide our customers with the highest quality transportation, warehouse and supply chain services available.

*Company Owned Equipment*

Founded in August 1985, we had our beginnings in expediting and airfreight which built a strong foundation to what we have now become; a FULL SERVICE TRUCKLOAD CARRIER. Our fleet consists of company-owned equipment. We take pride in knowing our customers will be serviced by our trucks and our people. This ensures you know who is delivering your freight on-time every time.

# Transportation Management

## Infrastructure

Our advanced Transportation Management Software allows our operations agents to manage and monitor your shipments, communicate, and acts as the nerve center of our operations, offering a suite of powerful functionalities. The automation within the TMS streamlines processes, from order entry to billing, reducing manual errors and enhancing overall operational efficiency.

## Tracking Capabilities

Every **tractor** and **trailer** is equipped with advanced tracking devices. Each device uses the latest technology to provide accurate and reliable tracking. This not only ensures timely deliveries but also allows for proactive decision-making, such as rerouting in case of traffic or unforeseen circumstances. Moreover, tracking and tracing facilitate better communication with customers by providing accurate ETAs and allowing them to monitor the progress of their shipments.

## Video Monitoring

Every truck is equipped with cameras. The cameras offers a multitude of advantages. They significantly enhance safety by providing real-time monitoring of the road, helping drivers identify potential hazards and react promptly to avoid accidents. Moreover, they aid in coaching and training drivers, allowing for the review of driving behaviors and offering insights for improvement. Beyond safety, cameras can enhance operational efficiency by monitoring cargo and ensuring adherence to protocols, ultimately reducing risks and improving overall fleet management.

## E-Business Capabilities

We pride ourselves on our cutting-edge technological capabilities that redefine efficiency and reliability in transportation. Our expertise extends to Electronic Data Interchange (EDI), ensuring seamless communication and data exchange between systems, streamlining processes, and minimizing errors. Moreover, our adeptness in integrating 3rd party payment systems facilitates hassle-free transactions, optimizing financial processes with precision and security.

Experience real-time updates and peace of mind with our email alert system, providing timely notifications on the status of your shipments. Whether it's departure confirmations, transit milestones, or arrival notifications, stay informed every step of the way.

Our commitment goes beyond these capabilities; we continually explore and adopt the latest technologies to elevate our services. Trust us to not just meet but exceed your expectations, providing a seamless, tech-driven transportation experience that ensures your peace of mind and the success of your shipments.

# The Fleet

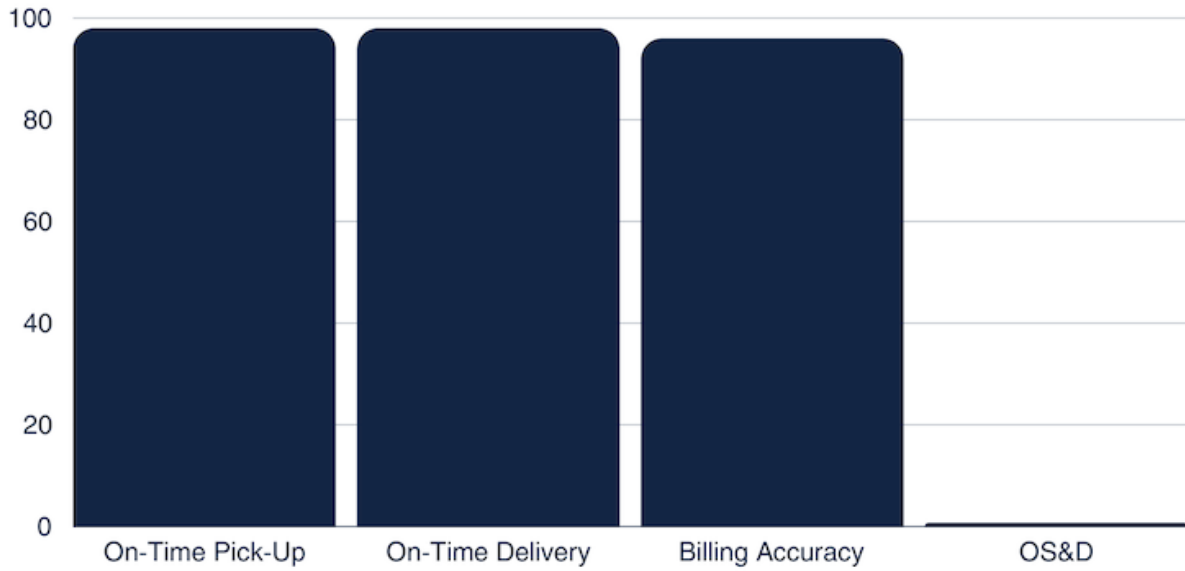

Our fleet of late-model trucks are standardized with newer technology. This signifies a commitment to efficiency, safety, and sustainability within the company. Upgrading to newer vehicles equipped with advanced technology not only ensures compliance with current industry standards but also enhances operational performance.

# Measurable Performance

## Measurable Performance

We consistently evaluate our progress, ensuring that every facet of our operations aligns with our organizational goals and business plans. This commitment to measurable performance not only drives accountability but also empowers us to make data-informed decisions, fostering continuous improvement and excellence across all aspects of our business

***Key Measurables***

Measurable	Performance
On-Time Pick-Up	Consistently over 98%
On-Time Delivery	Consistently over 98%
Billing Accuracy	Consistently over 99%
Overages, shortages & damages	under 1%

# Roadmap and Milestones

In charting the future course for our company, we're honing in on strategic expansions, innovative service offerings, and impactful partnerships to revolutionize the industry. Additionally, we're committed to forging major partnerships with technology pioneers to enhance operational efficiency and sustainability. This commitment seeks to inspire optimism among potential customers, assuring them that our business is dedicated to not just meeting but exceeding their expectations while leaving a positive mark on the industry.

Goals	Milestones
Short-term	Revolve around expanding services to new geographic regions, bolstering partnerships, and investing in smart technologies.
Mid-term	The focus lies on a multifaceted approach geared toward innovation, sustainability, and efficiency.
Long-term	Integration of advanced telematics and AI-driven route optimization to enhance fleet performance and reduce carbon footprint.

# Environmental Effort

Being a proud member of the CDP (Carbon Disclosure Project), a Smartway Carrier, and holding certifications such as the 4-Pillar and Ecovadis Certification, signifies our unwavering commitment to sustainable practices and environmental stewardship.

Through our affiliation with the CDP, we actively disclose and manage our carbon footprint, contributing to global efforts for climate change mitigation. As a Smartway Carrier, we prioritize fuel efficiency and emissions reduction in our transportation operations. Additionally, our 4-Pillar and Ecovadis certifications underscore our dedication to social responsibility, ethical business practices, and sustainable supply chain management, showcasing our holistic approach towards sustainability across all facets of our operations.

As one of the nation's 200 largest 'for hire' carriers, we are challenged not only to protect the motoring public with safe professional drivers, but also to protect our environment from the harmful emissions produced by diesel engines. We understand the footprint we have on our nation's environment and you can rest assured we are doing our part
